# My 3 major goals for the date 03/06/2020

Here are the three major goals I commit to work on for the date mentioned above.

1. Chapter on *SSL* for my Udemy course on **setting up a self-hosted web server**

2. Blog post on ***Tech 101 blog*** for the topic: ***Edge computing***

3. Watch chapter on ***Options Trading*** in the Udemy course ***Trading for monthly cash flow***.

I promise to allocate time for activities related to the above three goals for the day's calendar.
